Mechanical Trade Apprentice

*'I felt supported by the company and my team all along.'*

**10** Years at BE Campbell

At BE Campbell I found myself in my first full-time job, working with amazing people in a family-orientated business, doing something I enjoy.

I started at Wetherill Park in 2012 as a meat packer, and am now about to complete my apprenticeship in Mechanical Engineering.

*'I am extremely grateful to have been given this opportunity, and for all my colleagues who encouraged and supported me along the way.'*

Throughout my time, I have acquired expertise and skills across many different areas of the business. Starting an apprenticeship was a huge step for me from my previous role, with many new responsibilities and challenges to overcome. I felt supported by the company and my team all along, and I couldn't have done it without them.

My BE Campbell journey has been filled with professional and personal growth, opportunities and learnings. I am really happy where I am now, and excited for what's to come.

## Quick Facts

My favourite BEC product/  
dish I cook at home is...

*Pork Ribs*

An accomplishment,  
I am most proud of is...

*To be able to support  
my family*
